

CONTENTS

CHAPTER 1. DIADENS DEVICES

1. GENERAL INFORMATION

- Terminology
- A Comparative Description Using DENAS, DiaDENS-T and DiaDENS-DT
- Advantages of Using DiaDENS Devices
- Indications and Counter-Indications for Use of DiaDENS Devices
- Combination of DiaDENS device usage with other treatment techniques

2. INFORMATION ON THE SPECIFICS OF USING THE DIADENS DEVICE

- Appearance of the DiaDENS devices. Control terminals
- Ranges of the energy exposure and selection
- Frequencies of Electric Impulse Application and Their Selection
- Apparatus working methods

CHAPTER 2. DIAGNOSTIC CAPABILITIES AND OPERATION MODES OF DIADENS-T AND DIADENS-DT DEVICES

1. PURPOSE AND APPLICATION OF TEST PROGRAMME

2. PURPOSE AND APPLICATION OF SCREENING PROGRAMME

3. PURPOSE AND APPLICATION OF FOLL PROGRAMME

- General Information on Foll Method
- Preparation for Testing
- Express Assessment of the Functional State of Energy Meridians
- Detailed Examination of the State of Energy Meridians Using the "Index Decrease" Effect
- Medicated testing

4. PURPOSE AND PRACTICAL APPLICATION OF BIOREPER PROGRAMME

- Historical Note
- The Difference Between BIOREPER Method and Other Electropuncture Diagnostics
- Some Notes on Physiology and Anatomy of the Auricle
- Auricle Examination
- Preparation for Testing
- Determining the Individual Testing Voltage
- BIOREPER Testing Programme

CHAPTER 3. THERAPEUTIC CAPABILITIES AND FUNCTIONING MODES OF DIADENS DEVICES

1. THERAPY PROGRAMME

2. MED PROGRAMME

CHAPTER 4. DEVICE TREATMENT ZONES AND DATA PROCESSING METHODS

1. ZONE OF FRONTAL PROJECTION OF PATIENT'S COMPLAINT.

2. SEGMENTAL ZONES

- Segmental Zones of Particular Applications
- Segmental zones for general treatment

3. UNIVERSAL (GENERAL) ZONES

4. TRIGGER ZONES

5. VARIOUS SPECIAL ZONES

6. CONCORDANCE SYSTEM ZONES AND POINTS

7. THE MAIN ZONES OF RESUSCITATIVE THERAPY

CHAPTER 5. RECOMMENDED TREATMENT PROCEDURES AND DIADENS DEVICE TECHNIQUE

SCHEME 1. COMPLAINT IS COMPLEX AND LOCALISED, DISEASE IS ACUTE

SCHEME 2. COMPLAINT IS COMPLEX AND LOCALISED, DISEASE IS CHRONIC

SCHEME 3. PRESENCE OF A NUMBER OF DIFFERENT COMPLAINTS

SCHEME 4. INDEFINITE COMPLAINTS

CHAPTER 6. AURICULOTHERAPY USING DIADENS DEVICES IN MOST COMMON DISEASES

CHAPTER 7. AURICULOTHERAPY USING THE DIADENS DEVICES IN SOME EMERGENCY SITUATIONS

1. The most frequently used auricular points in lesions and in sports medicine (Fig. 26)
2. The most frequently used auricular points in some emergency conditions (Fig. 27)

APPENDIX

LIST OF ILLUSTRATIONS FOR FOREIGN DIADENS
